DETAILED ACTION

Reasons for Allowance

1. Applicant's arguments and amendment dated 8/26/2005 overcome prior Office rejection. The restriction requirements and rejection of the prior Office action are withdrawn.

2. Claims 1-16 are allowed.

3. Examiner's Statement of Reasons for Allowance:

Applicant(s) invention relates to a generator protection circuit, and more specifically, to a generator protection scheme.

The scheme has voltage and current detection for a generator with corresponding controls for determining voltage sensor failure and shutting down the controlled generator if measured voltage output and current level reach predetermined thresholds.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the configuration of the control scheme, which shuts down generator when voltage and current are less than thresholds, as disclosed and claimed, and which examiner's search failed to find.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
